Parkinson's Disease Foundation	Feb 01, 2014	PubMed Central	No
USDA	Jan 01, 2016	PubAg	DMP required
VA	Oct 01, 2015	PubMed Central	DMP required

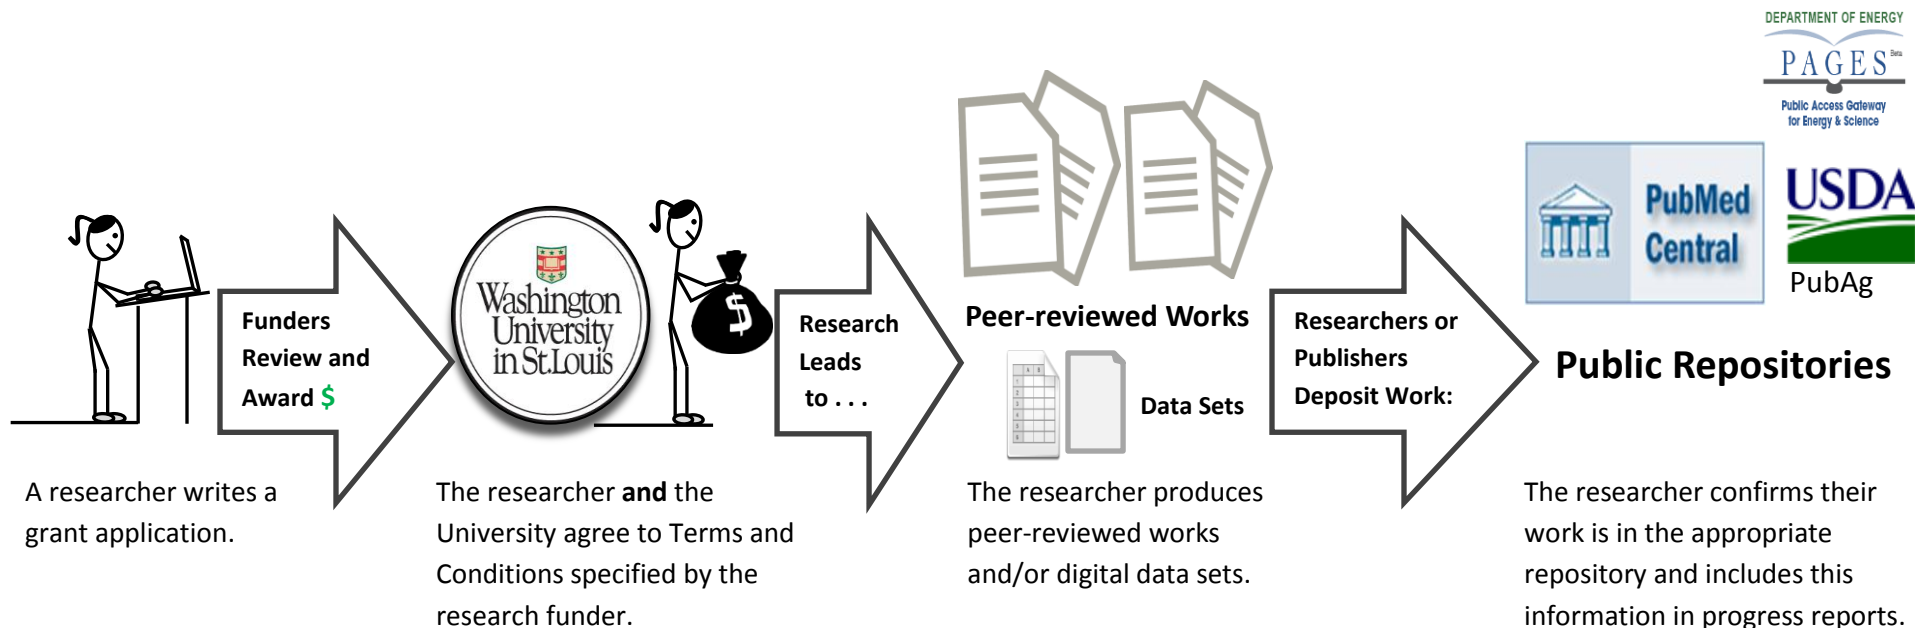

**\*This is not a comprehensive list.**

DMP = Data Management Plan

If you have questions about the public access policy of a research funder not found on the list, please contact us.

**Have questions? Need training?** **Please contact:** **Danforth Campus:** Ruth Lewis [rlewis@wustl.edu](mailto:rlewis@wustl.edu) or Cynthia Vitale-Hudson [chudson@wustl.edu](mailto:chudson@wustl.edu) or your subject librarian  
**Medical Campus:** Cathy Sarli [sarlic@wustl.edu](mailto:sarlic@wustl.edu) or Amy Suiter [suitera@wustl.edu](mailto:suitera@wustl.edu)

# Managing Public Access Policies

A researcher writes a grant application.

The researcher **and** the University agree to Terms and Conditions specified by the research funder.

The researcher produces peer-reviewed works and/or digital data sets.

The researcher confirms their work is in the appropriate repository and includes this information in progress reports.

## **Tip #1:**

Review the proposal requirements to determine if works need to be deposited in a repository and if a **Data Management Plan (DMP)** is required. Check out: <https://dmptool.org/>

## **Tip #2:**

Carefully review the Terms and Conditions of your grant award.

## **Tip #3:**

Before you publish, review the Copyright Transfer Agreement to determine if you or the publisher will deposit the work.

## **Tip #4:**

Three months before your progress report is due, check the status of your works to ensure they have been deposited.
